

**San Diego County Board of Supervisors Quotes  
McClellan Palomar Airport Master Plan Update  
County Board of Supervisors Meeting – October 10, 2018**

**Supervisor Bill Horn, October 10, 2018**

*"I've always wanted the runway lengthened..... I think Palomar Airport is an extremely important asset to the entire County of San Diego..... As you know, Lindberg is constantly landing and taking off all the time. They have restrictions when you come in. You can't come in after twelve*

**Supervisor Greg Cox, Oct. 10, 2018**

*"Our county airports serve in part as a way to add air travel capacity to our region and take the pressure off the San Diego International Airport."*

**Supervisor Ron Roberts, Oct. 10, 2018**

*"I'm impressed with the D-III solution. I think it's saying, 'Here's where we want to end up.'...I think it's important that we recognized our full intention, and that is per his motion, to achieve the D-III alternative, and I'm going to support that." -*
